BiOWiSH™ Enzyme Soap

Fact Sheet

BiOWiSH™ Enzyme Soap – Organic Soap

Description:

Based on the BiOWiSH™ Cosmetic Formulation Technology, BiOWiSH™ Enzyme Soap has proven benefits to effectively nourish the entire body.

BiOWiSH™ Enzyme Soap is handcrafted and naturally softer. Combined with rice bran extract to make a natural opaque colour with a high glycerine content so there is less bubbles, making it easy to rinse off without irritating the skin.

Made specially for the face and body, BiOWiSH™ Enzyme Soap acts as an exfoliator to remove bacteria, dirt and dead skin cells from the skin as it cleanses and nourishes with collagen.

BiOWiSH™ Enzyme Soap provides effective yet gentle cleansing for skin with acne and is an excellent deodoriser over long periods and acts as a mosquito repellent.

Unique Benefits:

- Enzymes digest dead skin cells leaving the skin fresh, soft and supple.
- Provides antibacterial agents which cause odor and skin diseases.
- Acts as an exfoliator to remove bacteria, dirt and dead skin cells from the skin as it cleanses and nourishes with collagen.
- Provides effective yet gentle cleansing for skin with acne.
- Excellent deodoriser and assists as a mosquito repellent.

Enzyme Soap available in the following formulations:

Collagen soap – Yellow colour for sensitive skin

Available in 125g, 50g, 30g, 25g

Available with or without ceramic case for the 125g size

Instructions for Use:

- For use on the whole body including face and neck.
- Wet your hands and rub softly on the soap to generate bubbles then apply to the target area, wash clean with water.
- You will immediately feel the tingling action of the activated enzymes digesting the wastes from your skin leaving you skin feeling clean, bright and firmed.

Acne Application:

For acne and scarring, use as normal directions and after a period of use, the affected area will reproduce new cells and eventually the acne scar will be fade out.

Storage Conditions:

Keep in dry place and do not soak. It is important to store the soap out of water. The ceramic case is recommended for proper drainage.
